

ReliabilityFirst is hosting its fifth annual protection system educational workshop for technical personnel on **August 13-14, 2019** at our office in Cleveland, OH. The focus this year will be on **“Asset Management Tools, the future of Managing Protection System Data.”** This is a highly interactive workshop with the attendees providing ideas, suggestions, and stories for the benefit of everyone. There is no fee to attend this workshop and it is open to anyone interested. Should you have any questions, please contact Thomas Teafatiller.

Intended Audience

- Substation Electricians/Supervisors
- Substation Field/Commissioning Engineers
- Relay Technicians
- Relay Engineers and others who work Directly with this equipment
- Communications Engineers/Technicians
- Company Trainers on this Subject
- Others interested in these topics

Participation will be limited to the first 85 people to register through the [Eventbrite link](#). There will be a waiting list available if the maximum number is reached prior to the workshop.

Lunch will be provided on the 13th and breakfast and lunch will be provided on the 14th, along with a networking reception at the end of the first day that includes appetizers and beverages. We look forward to hosting you at our office!

Travel Information

A ReliabilityFirst rate is available at the Embassy Suites by Hilton – Cleveland Rockside of \$124 per night and the Crowne Plaza Cleveland South – Independence for \$99 per night. The Crowne Plaza is located across the parking lot from our office and there are numerous other hotel brands in the area. You can book your hotel room using the links provided on our website [here](#).

Cleveland-Hopkins airport is about a 15-minute drive away from our office and most hotels in the area have a complimentary shuttle service. The Akron-Canton airport is about a 45-minute drive south on I-77, although hotel shuttle service is not provided.
